TINPLATE PACKAGING DESIGNER

Specialist in the creation and manufacture of tinplate packaging since 2006, we favor tinplate as a raw material in the design of our products. Designing and manufacturing custom decorative tinplate packaging adapted from famous vehicles is our specialty. Every day, we develop new packaging projects for manufacturers of biscuits, chocolates, teas, coffees, confectionery, and french gifts. More noble and more ecological, tinplate that we are using is a material recyclable and reusable to infinity. By mobilizing us, you contribute to the use of eco-responsible premium packaging that will allow you to easily manufacture all your products. Our expertise allows us to support our clients in all their projects, from the simplest to the most complex.

CARBON OFFSETTING AND COMMITMENT

We are committed to an eco-responsible approach alongside Forestor. Our aim is to reduce our carbon emissions by planting one tree for every container shipped. These trees will be planted on plots of land in France.

OVER 60 YEARS OF
LEGENDARY STYLE...

THE FIAT 500*

THE NEW COLLECTION

212 X 94 X 92 MM

Designed by Dante Giacosa and launched in July 1957, the Fiat 500 (or Cinquecento) is unmistakably Italian but 80% of sales took place outside of Italy. Adapted from the famous car, this tinplate box is designed for all kind of alimentary products : biscuits, sweets or even chocolates...

THE FUTURISTIC NEW BEETLE, THE HIT
OF THE SHOW

AN OFFICIAL PRODUCT

FOOD PACKAGING MADE OF TINPLATE UNDER OFFICAL LICENCE

THE NEW BEETLE*

THE ORIGINAL COLLECTION

228 X 86 X 93 MM

The New Beetle has become an icon of the automotive world in the same way as its ancestor the Volkswagen Beetle. An inimitable style with Californian influences which was the result of the extravagance and enthusiasm of creative people who were able to carry out their project from start to finish. Its aesthetic drew attention and made it a notable vehicle of its time.

THE TWENTY CENTURY STYLISH LOOK...

THE 2CV FOURGONNETTE*

THE ORIGINAL COLLECTION
196 X 84 X 95 MM

The 2CV fourgonnette is the very first car with a front-wheel drive configuration. It became quickly iconic because of its close relatives from the 2CV, its qualities and its numerous derivatives from the 20th century. The 2CV fourgonnette has been back on stage during 3 decades from 1951 to 1977, date on which the Acadiane replaced it.

TO TRANSPORT ALL KIND OF
MERCHANDISES...

THE TUB H*

THE ORIGINAL COLLECTION
198 X 98 X 103 MM

Some call it «TUB», name used to qualify its short-lived ancestor. The truth is the type H, the first mass-produced front-wheel-drive van, extends its ancestor spirit. Presented in 1947 and marketed in June 1948, it became successful to artisans, merchants, hospitals, postal services and even villains... Little by little, the H type has invaded the roads of France.

THE « **PIG NOSE** », A VINTAGE
MASTERPIECE...

THE D3A*

THE ORIGINAL COLLECTION
211 X 87 X 105 MM

When we talk about old commercial vehicles, we think of the Citroën Type H or the Renault Estafette. But few people mention the «Pig's Nose», a nickname rightly given to the Peugeot D3. In 1950, Peugeot began to market its first traction vehicle. Named Peugeot D3A, it was quickly taken over by the various coachbuilders. Its inside comfort is kind of rough and rudimentary !

THE NATIONAL RAILROAD PASSENGER CORPORATION...

THE AMTRAK TRAIN*

THE ORIGINAL COLLECTION

274 X 63 X 89 MM

The Amtrak train is the national passenger railroad company of the United States. It operates inter-city rail service in 46 of the 48 contiguous U.S. states and three Canadian provinces. Amtrak is a portmanteau of the words America and trak, the latter itself a sensational spelling of track.
